

Canada's National Specialty Insurance Firm

Dolden Wallace Folick LLP was created with the sole objective of providing legal services exclusively to the insurance industry. Our firm is an industry leader in terms of expertise and experience. We defend insureds under property, liability, and a wide variety of specialty insurance lines. We also provide coverage and underwriting advice to national and international insurers, and pursue subrogated claims on their behalf. Dolden Wallace Folick LLP has repeatedly been recognized as one of the top Insurance Defence firms in Canada, with offices in Vancouver, Kelowna, Toronto and Calgary.

We offer a dynamic and challenging work environment that provides you with the opportunity to make decisions and influence results. We are committed to creating an inclusive work environment that values, respects and supports different perspectives, cultures and experiences. If you are interested in making your mark and contributing to the overall success of a team, this is a perfect time to apply.

Our Firm continues to grow so we are searching for a talented Litigator who has been called to the bar between **2-5 years** with experience in general insurance defence practice and **Construction Law** to join our **Vancouver** team.

The successful candidates will have:

- 2-5 years of call with experience in insurance defence practice and Construction Law
- A license to practice law in British Columbia.
- Demonstrated commitment to client service.
- Admirable interpersonal skills.
- Analytical and reasoning capabilities.

This role will facilitate exposure to a wide variety of interesting and sophisticated matters. Dolden Wallace Folick has acted for all participants in the construction pyramid not only in the context of the traditional construction matrix, but as well on “design build” projects and owner managed projects.

You will have the opportunity to defend municipalities, developers, warranty-providers and all manner of construction site participants including roofing contractors, electrical contractors, insulation sub-trades, railing installers, masonry contractors and component manufacturers in numerous multi-party actions. Defence of the actions involve liaising with experts for the purpose of assessing potential liability, quantifying the claim against the insured and developing a defence strategy that would allow for efficient resolution of the action.

If you have a desire to work with leading lawyers in Construction Law, please forward your application to careers@dolden.com
